

Good morning! Happy Friday! I hope that all of you are doing well! I wanted to send an official congratulations to Erma Siegel and Bradley Academy for joining Discovery and Overall Creek as TSIN STEM Schools. We are fortunate to be in a district that promotes STEAM and real-world learning for our children. It is such an honor to work with those in Murfreesboro City Schools!! I look forward to the collaboration and innovative learning for our students across the district.

I will be sending my typical Friday email next week. After that, I will send email/Dojo communication as needed. I assure you that I will communicate whenever there is new information to share with families. There are a lot of unknowns and most of us do not like uncertainty, but we will do our best to provide certainty in the areas that we are able to do so. As always, if you have questions, please do not hesitate to reach out to me.

Have a great weekend!

Kristina Maddux
