

Hello Discovery Families!

I wanted to provide a few music resources that will allow your child to explore their musical creativity while we are out. These are all optional and always available on my school website.

Specdrums Mix is a free app for iPhone and Android that allows students to create different musical mixes. It is very user friendly for all ages and has the approval of DS 6th graders!

The Chrome Music Lab is another great site for musical exploration for all ages. It is easily found by searching Chrome Music Lab.

The younger K-2 students enjoy Emily Arrow. She is a former music teacher who writes songs to accompany children's books. She is going live M-F at noon every day. Her website is <http://www.emilyarrow.com>

[Emily Arrow](http://www.emilyarrow.com)

www.emilyarrow.com

Emily Arrow creates literature inspired music for children, cultivating an appreciation and love for singing, songwriting, and literature. Some of her fun songs include The Dot Song, The Curious Garden Song, and Louise Loves Art Song!

All of these sites and more are located on my slybaloo in the following link:
<https://www.slybaloo.com/mix/discoverymusicwebmix>

Music Lesson ideas:

Have your child create the soundtrack for their favorite book.

Students can interview a family member about their favorite type of music.

Hope to see you all soon!

Musically yours,

Dr. Kleppinger
